

Mohamed Khassar

Full-Stack Web Developer

Bouskoura, Morocco | +212 664 945127 | mohamedkhassar775@gmail.com

GitHub: github.com/mohamedkhassar | Portfolio: mohamed-khassar.vercel.app

Objective

Versatile Full-Stack Web Developer with a strong passion for **JavaScript** and **TypeScript**. Proficient in modern frameworks including **ReactJS**, **NextJS**, **NodeJS**, and **ExpressJS**. Committed to crafting high-performance, user-centric web applications with clean code, responsive design, and a focus on seamless user experience.

Highlighted Projects

PopcornPlay (Movie App), Front-end Developer | 2025

- Developed **PopcornPlay**, a movie web app using **ReactJS (TypeScript)** and **Tailwind CSS**, this project enhanced my skills in responsive design, API integration, and performance optimization for a smooth UX.
- Link:** <https://popcornplay-lyart.vercel.app>

InferaAI SaaS Landing Page, Front-end Developer | 2025

- Developed a SaaS landing page using **ReactJS (TypeScript)** and **Tailwind CSS**, this project challenged me to master responsive design and optimize performance for seamless UX.
- Link:** <https://infera-ai-landing-page.vercel.app>

E-Commerce Platform, MERN-Stack Developer | 2024

- Collaborated with a team to develop a user-friendly e-commerce platform using the **MERN stack**. Key features included **responsive design**, and **efficient product management**.
